Coffs Harbour, Australia, NSW

A beautiful holiday home! Perched 750 feet above the Pacific Ocean is one of Australia's most dramatic homes. With five en-suite bedrooms, the villa is perfect for 4-5 couples or two families (sleeps 11) looking to share the magic of a peaceful yet exciting getaway.

For the ultimate in-house movie experience, lounge back and be entertained in the 3 tiered private home theater. Keep your fitness in check with the professionally equipped gymnasium or enjoy a hit on the day/night tennis court, both guaranteeing views never offered by such sporting facilities.

This Luxurious destination defies description in more ways than one simply being here on a beautiful sunny day or with a passing storm, the views are always extraordinary. There is no way to describe this location until you step inside the doors of our villa, each piece of furniture was carefully chosen to bring together the inspiration of the ocean and the tranquility of the perfect escape. It is no wonder that most that enjoy this home come back year after year.

"My husband to be and I fell in love with the website pictures. Elegant and spacious with amazing ocean views, everything we wanted in a wedding location. Upon inspecting the house we were overwhelmed that the reality could be better than the stunning pictures. We look forward to sharing such a picturesque location with our guests and thanks Mal for allowing us to get married at beautiful Villa." Desley -
