

FACILITIES & SERVICES

Our villas are traditional Zakynthian stone houses, very nicely decorated and well equipped to accommodate home comforts. All with private swimming pools and hydro massage spots with direct access to the sea and spectacular "Priest's Cave". There are areas for relaxing and dining outdoors, a traditional wooden oven and BBQ.

If you prefer to spend your day sunbathing and swimming you can reach the sea down the villa by 150 m long stone path, which is ending straight to the sea either to the Priest's Cave. There you can swim in the crystal water and see the caves which are famous for their bright blue color. The sea area is good for fishing with big variety of Mediterranean fishes, which are very tasty!

You can use the motorboat to discover your own private beach or visit beautiful beaches around: Ag. Nikolaos, Maktis Gialos, Xigia (health resort). If you want to walk or go mountain biking there are plenty of interesting paths. Birds, fauna and flora will keep your attention all the way along.

You can also just relax on the balcony watching birds and enjoying the amazing blue sea views. If you are lucky you will see jumping dolphins or the seal (monachus, monachus) which are living in our vicinity.
